With gas still being more than \$1.80 a gallon, more people are driving hybrid cars. Will you be driving one in three years?

Yes. I'm planning on buying myself a four-wheel drive vehicle as a Christmas present and the one I am looking at, the Ford Escape, is being made as a hybrid vehicle. As long as it has a CD player I'll be happy.

VALERIE HOFFMANN

No. I will probably still have the same car I have now in three years. Hybrid cars would have to be proven to be reliable and they haven't been around long enough for me to make a judgement.
